

I-Bar Heatsealer with Cut Wire & Rollers

Model Type	Seal Length	Seal Type	Power
ME450SP	450mm	1mm Cut Wire	240V/50Hz 350W
ME600iP	600mm	1mm Cut Wire	240V/50Hz 450W

MEC Brand Heatsealing Machines are manufactured from the finest quality materials. **MEC** has the distinction of being the only sealer manufacturer in Taiwan that has been awarded the prestigious ISO-9002 certification.

STEP 1 : PULL OUT SOME FILM AND PUT YOUR PRODUCT IN

Place the roll of PP centrefold film on the rollers. Part it with the separating plate and pull a length under the sealing arm.

Place the products neatly between the two pieces of centrefold.

STEP 2 : "SEAL AND CUT" THE BAG THEN ROTATE IT

Press the sealing arm down. Hold it down until the sealing light has switched off.

Pull the bag away and rotate the open end towards the sealing bar.

STEP 3 : "SEAL AND CUT" THE OPEN END AND YOU'RE FINISHED

Repeat the sealing process ,tearing the excess plastic away as the sealing light switches off.

You now have a perfectly sealed packet of fresh product.

ISO 9002

While a variety of Centerfold Films can be used with the machines we recommend CONTOUR Brand POE Films for the best result. These FDA Food Grade Films are available in various Sizes & Thicknesses and can be Shrink wrapped.
